1. During a recent business trip to Colombia I had occasion to visit and converse with business executives, owners of industrial firms and government officials. Through conversation with such I gained the information presented below.
2. The majority of the business community, both big and small businesses, is not in complete harmony with the government of President Carlos Lleras. Most business executives confirm that under the previous Conservative Party administration there was a stimulation of interest in foreign investment, a factor which is causing the current administration immense problems due to restrictive legislation on the percentage of capital which may be removed from the country. It is the consensus of the business community that this law will be changed within the next eight months, as a result of pressure by the business community upon the government.
3. At the present time there is much discontent among owners of private business firms as well as among the employees about a proposed new law. Current legislation requires that employers place in a fund a certain percentage of employees earnings, which will be returned to the employee upon retirement or termination of employment. Under this arrangement the employer may make use of the money for investments or development of the firm or industry. The reason for the discontent is that the government is attempting to pass a law requiring all business firms and industries to pay, on a monthly basis to the government, the money received from the employees. Severance or retirement pay of an employee will then become a responsibility of the government. The business community is adamantly against this legislation because it will restrict much of business operation. Employees are equally against the legislation because they feel once the government collects the money it will be appropriated for other purposes and never returned to the people.
4. The government has stated that the money collected will be used for development of low and middle class housing, and rents collected from these developments will be placed in a fund for the payment of severance and retirement benefits.

1. During a recent business trip to Ecuador I had occasion to visit and converse with several business executives and government officials. Through conversation with business colleagues I gained the information presented below.
2. The business community is in complete harmony with the administration of President Otto Arosemena Gomez. The efforts of the present government to encourage foreign business investment is considered to be the biggest plus on the side of the current administration. Evidence of the efforts made by the government and the success achieved is demonstrated by the joint venture of two major oil companies, Texaco and Gulf, in drilling for new oil deposits. Agreements were reached between the government and the oil companies for prospective drilling in an area northeast of Quito, approximately 30 minutes by helicopter. The first four holes resulted in four oil producing wells. This strike is considered the richest since the Venezuelan strike. The government is presently being flooded with requests for permits to continue oil explorations in the area. The requests are coming from US, Japanese and West German firms.
3. President Arosemena is in firm control of the Army, and all elements of his political machine. He would like very much to continue as President. The desire of Arosemena to continue as President takes on more meaning when consideration is given to the possibility that Jose Maria Velasco Ibarra may again be elected President. The business community does not look favorably on this possibility but most businessmen are quick to concede that Velasco has the inside track at this time.
4. There is no evidence of insurgent capability by any group at the present time. Guerrilla activity is practically nonexistent and is not considered a problem area for the Army or the government.

1. During a recent business trip to Colombia I had occasion to visit and converse with several business executives and government officials. Through such conversations I gained the information presented below.
2. Guerrilla activity within the country is presently confined to the following geographical locations. The Army of National Liberation (ELN) is operating in Departamento Santander Del Sur at a point nearest the Venezuelan border. This base of operations provides the group with numerous escape routes to Venezuela in cases of hot pursuit when engaged by elements of the Army. It also provides ease of operations in the exchange of necessities. There is considerable traffic in this area and all attributed to the ELN.
3. The leader of ELN is Fabio Vazquez Castano. He is the same person who hijacked a Colombian airliner and forced the pilot to fly him to Cuba. Vazquez is presently in Cuba. Victor Medina Moron is second in command, and is presently running the operations of the group. The ELN is dedicated to and followers of the Peking line.
4. The Revolutionary Armed Forces of Colombia (FARC) is presently operating along the borders of the Departamentos of Tolima and Huila in the Intendencia of Caqueta. The leader of this group is Manuel Morulanda, better known as "Tiro Pijo". This group is dedicated to and followers of the Moscow line.
5. All members of ELN and FARC are known to be Colombian nationals. The leaders of each organization have been trained in Cuba or in the Soviet Union.
6. Money and necessities for the ELN groups is being furnished by Cuba. Support for FARC is unknown. Numerous weapons have been left behind by FARC after engagements with the Army. These weapons are of Czech origin. However, most of the weapons in use by ELN and FARC have been acquired as a result of engagements with the Army.

7. There is a new group, name unknown, operating in Los Altos Del Sincé in the northwest coast near the town of Sincelajo. This group is of no consequence and the Army has it under control. In the case of ELN and FARC the Army is usually aware of their whereabouts but cannot claim to have them under control.
